QUESTION 01

How many entries are for Fall 2026?

29597

Entries

Count entries whose term is Fall 2026, ignoring letter case.

QUESTION 02

What percentage of classified entries are international?

46.33%

International

The denominator includes American, International, and Other. Missing or unrecognized classifications are excluded. Other is not counted as International.

QUESTION 03

What are the average GPA, GRE Quantitative, GRE Verbal, and GRE AW?

GPA	GRE Q	GRE V	GRE AW
3.79	259.90	161.53	8.34

Score quality: These are averages of the stored values. Some collected scores are outside the current GRE ranges (Quantitative and Verbal: 130–170; Analytical Writing: 0–6). The original values are retained, so these averages should not be treated as verified test-score averages. See limitations.pdf.

Each AVG ignores only its own missing values. An applicant with a GPA but no GRE still contributes to the GPA average. The collected GRE field is used as GRE Quantitative, as requested by the assignment.

5000

requested by the assignment.

QUESTION 04

What is the average GPA of American Fall 2026 applicants?

3.79

GPA

Filter to American Fall 2026 entries, then average their available GPAs.

QUESTION 05

What percentage of Fall 2025 entries are acceptances?

47.92%

Accepted

Divide accepted Fall 2025 entries by ALL Fall 2025 entries, including entries with other or missing decisions. NULLIF avoids division by zero.

QUESTION 06

What is the average GPA of accepted Fall 2026 applicants?

3.78

GPA

Average available GPAs among entries reporting acceptance for Fall 2026.

QUESTION 07

How many Johns Hopkins master's Computer Science entries are there?

8

Entries

Use the original combined program field and degree. Match Johns/John Hopkins or JHU and Computer Science or CS, with common master's degree spellings. No term or acceptance filter is requested here. PostgreSQL ~* means a case-insensitive pattern; \m and \M mark word boundaries.

QUESTION 08

How many Fall 2026 CS PhD acceptances are at Georgetown, MIT, Stanford, or Carnegie Mellon (original names)?

28

Entries

Use original program names with common university aliases. Word boundaries prevent MIT from matching inside an unrelated word. Each entry is counted once.

QUESTION 09

Does the previous count change when LLM-generated names are used?

Original	LLM	Difference
28	28	0
